Crystal Brush™

Glitter Paint

Sparkle Finish

Meoded Crystal Brush™ is a glitter paint which makes interior surfaces glisten and sparkle, giving your walls a contemporary look unmatched by any other paint. Easy to use, **Crystal Brush™** will add a unique decorative flare to your space with just the swish of a brush. The advanced Low VOC water-based formula of **Crystal Brush™** utilizes fine glitters, producing a durable, lightly textured decorative finish which is ideal for elegant living and dining rooms, foyers, theaters, commercial and retail spaces. Another great use for **Crystal Brush™** is in kids' rooms, with bold and vibrant colors transforming their space into a fun and magical place to play and imagine.

SURFACE PREPARATION

All surfaces must be clean and free of dust, dirt, oils and grease. Make sure the surface is sound and free of loose and flaking paint. Priming the substrate is highly recommended, and do not paint over shiny, smooth surfaces, such as plastic or gloss paints, unless prepared with the right primer.

PRIMING

- **New Drywall Surface** - Prime substrates with PVA acrylic primer and let it dry fully.
- **Existing Surface** - Any surface with sheen should be sanded lightly, cleaned and dust free. Then prime the surface with a water-based multi-purpose primer and let it dry fully.

APPLICATION METHODS

Crystal Brush™ should be applied with a high-quality brush. Apply two coats in a crosshatch pattern to produce an organic look and variation of a glittery effect. To make the application

process easier, **Crystal Brush™** can be applied on the surface with a roller in small areas and then immediately back brushed for the effect. Additionally, a flogger brush can be used to soften the second coat while it is drying for a more elegant effect. Apply only during temperate conditions: 50° to 90°F and between 25% and 75% relative humidity.

Crystal Brush™ can also be applied using a HVLP spray gun with a fine size 4-5 tip, if the material is too heavy, you may dilute with water up to 10%. Airless sprayers may also be used.

COLORS

Crystal Brush™ is supplied in White, Gold, and Black bases from which custom colors can be created. It is recommended to use as dark a base as possible to achieve your custom tone, and additional glitters in different colors can be added in small amounts to create even more unique finishes.

SIZES AND COVERAGE

Depending on surface texture, porosity, and method and concentration of application, Crystal Brush will cover approximately 100 to 160 sq ft. per gallon with 2 coats.

Crystal Brush™ will cover approximately 25 to 40 sq ft. per quart with 2 coats.

CLEANUP

Clean rollers, brushes, tools, and equipment with warm, soapy water immediately after use.

DRY TIMES

Recoat time is a minimum of 2-3 hours; dries to touch in 4 hours. Full cure can take up to 7 days, depending on conditions.

HANDLING & STORAGE

Keep container closed when not in use. Keep from freezing, but if frozen, gently thaw paint out

at room temperature for at least eight hours before use.

VOC

Material contains less than 50 grams per liter Volatile Organic Compounds.

HEALTH & SAFETY

Avoid contact with eyes. Gloves are recommended, and wash hands after use. Do not take internally. When spraying or sanding wear an appropriate, properly fitted, NIOSH-approved respirator during and after use. Follow the respirator manufacturer's direction for respirator use.

Keep Out of reach of Children

WARNING!

If you scrape, sand, or remove old paint, you may release lead dust. Lead is toxic. Exposure to Lead Dust can cause serious illness such as brain damage, especially in children. Pregnant women should also avoid exposure. Wear NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

WARRANTY

Meoded Paints & Decoration™ warrants its products for the purpose in which they were intended for, when applied and used in accordance with manufacturer's instructions within 10 months of production date. Warranty period of Meoded's products is 5 years from the date of installation. **Meoded Paints & Decoration™** reserves the right to inspect installations prior to resolving any claims made

under this warranty. This limited warranty is exclusive and in lieu of all other warranties; Either written, oral or otherwise implied. **Meoded Paints & Decoration™** also excludes any liability for consequential damages. Meoded's liability under this warranty is limited to the replacement of products found to be defective or refund to the original purchaser, with proof of purchase.

TECHNICAL SERVICES & SUPPORT

Meoded provides customers with any level of assistance that may need to gain full value from our products. Designers can call upon our professional staff to match colors or create new colors for custom installations. We're ready to provide color charts and sample boards for texture evaluations and comparisons. Installers can call upon our master craftsman for advice and guidance at every step of the installation process. If you have any questions whatsoever, our enthusiastic and courteous staff will provide the support you need to experience the **Crystal Brush™** advantage.

Every Meoded product comes with instructions that are more than adequate to guide any finish contractor or homeowner to a successful installation. In addition, we offer professional seminars for applicators of all skill and experience levels. We teach everything from the basic installation steps to tips and techniques for artists and artisans. You can also find a detailed YouTube video for application tips.
