Sapphire Metallic Sahara Effect

The Ultimate Metallic Effect Paint
Tintable Water Base
Interior/Exterior Satin Finish

Meoded **Sapphire Metallic Sahara Effect** is a unique Low VOC pearlescent paint that gives walls, metal, trim, furniture or any other paintable surface a rich, opulent look of shimmering satin. Whether in homes, offices, or commercial spaces, Sapphire Metallic Sahara will give surrounding areas an heir of sophistication fitting even for royalty. Sapphire Metallic Paint is an advanced water-based formula made with fine mica powders giving surfaces a beautiful pearl luster with less environmental impact. Meoded's Sapphire Metallic is combined with clear glass beads (#5 and #10) to create a beautiful "liquid wallpaper" finish called the **Sahara Effect**. The **Sahara Effect** creates a pearlescent rough yet elegant texture on your wall.

SIZES AND COVERAGE

Covers approx. 140-180 sq. ft. per gallon; 40 sq. ft. per quart using the **Sahara** Fabric technique.

Covers approx. 150-220 sq. ft. per gallon; 50 sq. ft. per quart using the **Sahara** Line technique.

COLORS

Sapphire Metallic is available in 16 bases, which can be tinted to create 60 different colors.

Sapphire Metallic Sahara Effect can also be customized to nearly any color.

SURFACE PREPARATION

All surfaces must be clean and free of dust, dirt, oils and grease. Make sure the surface is sound and free of loose and flaking paint. Meoded Sapphire Metallic will not stick to shiny surfaces

including vinyl, glass, and semi-gloss/gloss surfaces. Prepare the substrate with the recommended water-based primer over the previously painted surfaces or basecoat. It is recommended to tint the primer to a similar color as the finish coat of Sapphire Metallic.

SAHARA LINES APPLICATION

First Coat: Roll on a layer of Sapphire Metallic Paint, and allow it to cure completely for 12 hours.

Second Coat: Add one quart of Sahara beads to 1 gallon of Sapphire Metallic paint and stir well. Use a 4" brush to coat the surface creating either horizontal, vertical or diagonal lines. Immediately after, take a clean brush to smoothen the surface and straighten the lines.

SAHARA FABRIC APPLICATION

The fabric technique uses a rigato tool to design the Sahara fabric look with horizontal, vertical, or diagonal lines.

First coat: Add one quart of Sahara beads to 1 gallon of Sapphire Metallic paint and stir well. Use a 4" brush to coat the surface creating horizontal lines. Immediately after, use a rigato tool to smoothen the surface and straighten the lines. Once the lines have been straightened, take a clean brush to smoothen the lines once again. For full dry time wait 12 hours.

Second Coat: Use a 4" brush to coat the surface creating vertical lines. Immediately after, use a rigato tool to smoothen the surface and straighten the lines. Once the lines have been straightened, take a clean 4" brush to smoothen the lines once again.

EXTERIOR APPLICATION

It is recommended to protect **Sapphire Metallic Sahara Effect** with Meoded Cristallo Clear for exterior applications. 2 coats will usually provide adequate protection, while 3 coats are recommended for high traffic areas. Cristallo Clear is available in both matte and semi-gloss sheens.

CLEAN UP

Remove temporary protection, such as masking tape and covers. Clean up spills and splatters using methods that will not damage the surfaces.

VOC

Material contains less than 50 grams per liter (0.278 lb. / gal.) Volatile Organic Compounds.

HEALTH & SAFETY

Avoid contact with eyes. Gloves are recommended, and wash hands after use. Do not take internally. When spraying or sanding, wear an appropriate, properly fitted, NIOSH-approved respirator during and after use. Follow the respirator manufacturer's direction for respirator use.

Keep Out of Reach of Children

WARNING!

This product may contain traces of chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

WARRANTY

Meoded Paints & Decoration™ warrants its products for the purpose in which they were intended for, when applied and used in accordance with manufacturer's instructions within 10 months of production date. Warranty period of Meoded's products is 5 years from the date of installation. Meoded Paints & Decoration™ reserves the right to inspect installations prior to resolving any claims made under this warranty. This limited warranty is exclusive and in lieu of all other warranties; either written, oral or otherwise implied. Meoded Paints & Decoration™ also excludes any liability for consequential damages. Meoded's liability under this warranty is limited to the replacement of products found to be defective or refund to the original purchaser, with proof of purchase.

TECHNICAL SERVICES & SUPPORT

Meoded provides customers with any level of assistance that may need to gain full value from our products. Designers can call upon our professional staff to match colors or create new colors for custom installations. We're ready to provide color charts and sample boards for texture evaluations and comparisons. Installers can call upon our master craftsman for advice and guidance at every step of the installation process. If you have any questions whatsoever, our enthusiastic and courteous staff will provide the support you need to experience the **Sahara Effect** advantage. Every Meoded product comes with instructions that are more than adequate to guide any finish contractor or homeowner to a successful installation. In addition, we offer professional seminars for applicators of all skill and experience levels. We teach everything from the basic installation steps to tips and techniques for artists and artisans.
